## TRADE AND INVESTMENT

### OPEN DOORS TO A WORLD OF OPPORTUNITIES

L'ICE-Agenzia per la promozione all'estero e l'internazionalizzazione delle imprese italiane è l'organismo attraverso cui il Governo favorisce il consolidamento e lo sviluppo economico-commerciale delle nostre imprese sui mercati esteri. Agisce, inoltre, quale soggetto incaricato di promuovere l'attrazione degli investimenti esteri in Italia. Con una organizzazione dinamica motivata e moderna e una diffusa rete di uffici all'estero, l'ICE svolge attività di informazione, assistenza, consulenza, promozione e formazione alle piccole e medie imprese italiane. Grazie all'utilizzo dei più moderni strumenti di promozione e di comunicazione multicanale, agisce per affermare le eccellenze del Made in Italy nel mondo.

ITA - Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy.

With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses. Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

CPF  
CONSORZIO  
PROMOZIONE  
FILATI

---

The Consorzio Promozione Filati - CPF (Yarns Promotion Consortium) is a group of Italian spinners established 30 years ago among the most dynamic, creative, and export-oriented companies.

Today, the companies are 35 representing all the qualities of the sector: carded, classic, worsted, for circular knitting, for weaving and hand knitting yarn.

The common objectives of the companies are the following:

- The research and innovation content, consequence of constant attention to both fashion trends, proposed in various forms seasonally and to the optimisation of the production processes, result of the collaboration with research structures having vast experience in the textile sector,
- The commitment towards environmental, social, and organisational sustainability, certified by having created, in 2015, a specific Charter of Values to whom the companies can apply,
- The participation as absolute protagonists in the most important fair, Pitti Immagine Filati, which is held in Florence twice a year,
- The active support to young designers and their creativity supplied through the collaboration with many International fashion schools, which in 2009 gave birth to the contest "Feel the Yarn" ([feeltheyarn.it](http://feeltheyarn.it)), in collaboration with Pitti Immagine Filati.

Thanks to this expertise CPF started many collective promotional initiatives over the years, both in fairs, such as Spinexpo Shanghai, and through specifically events, like the workshops in Japan, South Korea, China, France and Nord Europe (Copenhagen, Stockholm and this year Amsterdam).

Feel the Yarn in Shenzhen is the best initiative to present the excellence of Italian yarns in China and we hope that it can bring a contribution of style and research on the Chinese market.

# GENERAL CONCEPT FOR FW 20.21

"We are our past, our roots."

---

Roots represent our identity and the result of layering other people's experiences and something else before us, without them becoming a cage which prevents us from exchanging ideas, thus from growing and evolving; they are rather a cultural background we can refer to, a fundamental point we can start from.

But, above all, we are made of present moments it is to be hoped that we take roots, in order to be able to live at the height, actively and consciously. Finally, we are our future, our plans, our dreams and, like trees, it is possible to sprout and to bear fruits only after being deeply rooted.

The four chromatic ranges speak with shades which apparently are out of contest, in search for new bases for new roots.

*Botto Giuseppe*

---

In 1876, Giuseppe Botto established his wool mill in Valle Mosso, in the province of Biella. In 2016, the company celebrated 140 years of business. Today, the fourth generation of the family runs the company, attentive to the challenges of the future.

Skill, mastery and research converge in collections that interpret contemporaneity underpinned by a firm belief in a genuine and inimitable legacy. Preserving tradition entails looking ahead, continuously infusing past, present and future with innovative solutions. Yarns and fabrics created and produced in the two facilities of Valle Mosso, in the province of Biella, and Tarcento, in the province of Udine, are the heart and soul of cashmere, wool, silk, linen and cotton collections produced by exclusive spinning, weaving, dyeing and finishing processes.

Botto Giuseppe & Figli is one of the highest expressions of the Italian manufacturing sector, where expert hands skillfully perform long and complex processes that create charming quality products for discerning clients.

IAFIL -

INDUSTRIA AMBROSIANA FILATI MILANESE  
QUALITY SINCE 1890

IAFIL was founded in 1890 and boasts a “know how” that enables to produce and commercialize yarns of a superior quality using only the World’s finest Cottons, together with other precious fibers.

## IAFIL GUARANTEES

For more than 100 years in the production, marketing and commercialization of premium yarns, Iafil proposes cottons, linen and silk with a registered trademark. IAFIL believes in sustainability and corporate responsibility: for this it proposes yarns with important voluntary certification, which respond to very stringent environmental, productive and social protocols.

In IAFIL’s Collection for Autumn/Winter 2020/2021 you can find different blends of Cashmere-Wool-Cotton and interesting offers in Alpaca, Silk and top fibres of excellence for the development of yarns that have many tactile alternatives and aspects playing with extreme gauges and full-bodied lightness.

---

Industria Italiana Filati is specialized in the **production of fancy yarns with precious blends and innovative effects**. All the production chain still takes place in Prato and our products are 100% traceable.

**Today we present 3 different lines**, Accademia, Ecollezione and Industria that represent our history and commitments.

**Accademia Line** focuses on careful research into materials and new production technologies. Noble fibers like Baby Alpaca, Super Kid Mohair and Extra Fine Wool span on new generation spinning machines, Airy, for new lightness and softness.

**Ecollezione Line** collects a selection of yarns made with fine alpaca and recycled PET. These yarns are naturally dyed selecting peruvian alpaca fleece tones without any treatment other than washing.

**Industria Line** offers fancy knitting yarns in natural and synthetic fibers, suitable for a young and sporty range of product for both men and women.

# MONTICOLOR

---

---

Since 1993, Monticolor has grown following the fundamental principles of quality and service, constantly increasing the range of yarns in various type and colors, always quality tested and always available on stock. STOCK SERVICE: more than 4.000 items of yarn types and always contemporary shades constitute Monticolor's wide and complete yarn proposal. COLOR STOCK FOR SAMPLING: on all knitwear shade cards you will find a QR code to discover and always be updated on the available colors on stock for samplings. COLORS FOR LIFE: Monticolor's engagement since 2008 to direct its products and the activities connected to their production towards a new model of development, in which environmental care, respect for mankind and economic sustainability coexist. Yarns are GOTS, GRS and RCS certified: the advantages of organic cotton, recycled cotton, recycled PET and recycled cashmere, mixed in trendy yarns. DETOX: with the aim of granting our Planet and the future generations a world free from toxic substances. Monticolor joins Detox project, engaging therefore in eliminating all emissions of dangerous chemicals from its production chains and on a general basis from its products, starting from January 1st, 2020. ACTIVE LAB: new yarns with technical and efficient performances, aspects and contents. The innovative Deocell fiber eliminates bad smells at molecular level! It is skin-friendly as is maintains natural PH levels and inhibits the growth of bacteria. Tested by acknowledged laboratories.

# olimpias

---

Olimpias was created by the merger of a number of companies. Today, Olimpias is a unified group and a leader on the European textile scene. Olimpias' roots are in the industrial heartlands of Italy, where around 1000 of the group's total workforce of 1500 are employed. Thanks to our size and the thorough integration of our production processes, we can offer our customers an extensive range of products and services. Our processes are based on the most advanced technologies and the best expertise available, and guarantee respect for the environment and for the health and safety of our workforce and of our customers. All our products are certified to Oeko-Tex standard 100, while our quality system is certified to ISO 9001. Our product range includes cotton yarn for knitwear, worsted and carded wools and cotton based woven fabrics. Our services include garment finishing, woven labelling, and the design and creation of entire man, woman and child clothing collections. These are the product classes that make up our offer. Each product class has been created by autonomous, specialist research and development, and is handled by highly professional sales management.

---

We produce high end fancy yarns for industrial knitwear in a company that exists since 1884.

We apply almost exclusively natural fibers (as wool and alpaca) to fancy constructions, to obtain volumized and comfort yarns. A unique and unconventional proposal renewed at every collection. We have an internal production plant with different technologies at the disposal of our technicians and thus we fully control the process, from research and creation to final quality of the product. We care for the environment, and for the quality of life and safety of our workers. We have signed the Detox agreement in 2016 and have constantly reduced the environmental impact of our yarns since then.

# Tollegno 1900

LORA & FESTA

---

Tollegno 1900 is a world leader in the manufacture of combed yarns for knitwear and weaving and it's specialized in Merino wool and fine fibers. The process is entirely carried out in its own factories, to guarantee careful control over the entire production process, from raw matter to finished yarn.

The Company is based in Tollegno (Biella district, Northern Italy) since end of XIX century and has commercial in New York, Hong Kong and Osaka.

The annual production exceeds 4,000 tons. and due to a flexible organization, Tollegno 1900 can guarantee quick turn also for big quantities of yarn.

High quality, innovation and respect for the environment are the cornerstones of Tollegno 1900 business. Every day, a purification plant processes 2,300 - 2,500 cubic meters of water, and thanks to a brand-new osmosis plant built in 2018, 50% of the water can be reused. Part of the factories' roofs are covered with photovoltaic solar panels and a hydroelectric plant with 2 water turbines can generate approximately 580 kilowatt/hour is in function.

Tollegno 1900 is compliant to the most important international standard: ISO 9001 - OEKO-TEX – RWS - ORGANICA PRECIOUS FIBER - TESSILE E SALUTE.

ZEGNA BARUFFA LANE BORGOSIESIA S.p.A.

*Botto Poala*

For over 160 years, excellence in the creation and production of high-end yarns for knitwear. 100% made in Italy.

Three product lines, one philosophy: for over 160 years all the production steps, fully integrated, are made in-house in our Italian plants. This way of working, together with the selection of the highest quality raw materials, grants the uniqueness of the yarn, set by rigorous standards even for large quantities.

The reason why Zegna Baruffa has a leading role in the textile world is due to our production capacity and the wide range of the collections. From the biggest fashion companies to the professional individual, we work with knitters, brands and textile designers.

Sustainability for us means growth since 1850, always along with the strong integrity and ethics of the company, of the work and in respect of the Planet. Discover our certified Sustainability Report 2017.

Zegna Baruffa Lane Borgosesia produces and distributes in over 50 countries around the world. The brands Baruffa, Chiavazza, Botto Poala represent the widest range of natural fibers transformed into yarns. In the 1980s Zegna Baruffa Lane Borgosesia S.p.A. launches a product that would become the symbol of high quality: Cashwool®.
